Updated to add all parts into 3 categories, TMArmory, TMMarine, and TMWing. When downloading ensure you also grab the dependencies or the mods will not function correctly. Enjoy and let me know if you run into any problems!

i have the mods for it

is it possible to have to many mods?

Can you post a screenshot an image of your game data folder?

I gotta tell you, I love the F-35 you put in there. I had to make some tweaks to make it fly smoothly but I appreciate that you added it
